

Sponsorship agreement for ICOS Nordic conference

The Integrated Carbon Observation System (ICOS; <https://www.icos-cp.eu/>) is a well-established European research infrastructure that measures CO₂ and other greenhouse gasses in the air, the ocean and in terrestrial ecosystems. It consists of 173 measurement stations of which 46 are located in the Nordic countries. ICOS-Norway organizes the fourth Nordic conference (<https://icosnordic2023.w.uib.no/>) on 21-22 November 2023 in the University Hall in Bergen. We expect 100-150 participants primarily from the Nordic countries, but also from Estonia, Lithuania and Latvia. Manufacturers of relevant instruments are invited to sponsor the event. Agreements can be made as long as there is space.

Minimum sponsorship of 10 000 NOK

- Free participation for one person one day including lunch and coffee
- Logo and acknowledgment of sponsorship on the conference website

Basic sponsorship of 20 000 NOK

- Free participation for one person one day including lunch and coffee
- Logo and acknowledgment of sponsorship on the conference website
- Demo stand in the University Hall for one day

Premium sponsorship of 40 000 NOK

- Free participation for one person both days including lunch, coffee and conference dinner
- Logo and acknowledgment of sponsorship on the conference website
- Demo stand in the University Hall on both days

General conditions: Demo stand consists of a table of approx. 140 x 50 cm with a chair and space for a roll-up or poster stand behind. Sponsorship is intended for joint information exchange and demonstration of technical equipment. All participants must follow the University of Bergen's regulations. Sponsorship shall not include gifts or sales. For more information (in Norwegian only), see footnotes 1 and 2.
